

OXY

HERRMANS® OXY DD29 dual density grip is very ergonomic with high comfort. The ergonomic features and dampening ability of the grips, tempt you to an even longer ride. The angle of the grip is optimized for preventing Carpal Tunnel Syndrome. The fit is also optimized for the palm - releasing pressure from the Ulnar Nerve. The grips are phthalate free, PAH free, latex free as well as natural rubber free.

Not all products are available in all markets. During continuous improvement specifications and design are changing. All values are nominal values. Illustrations do not necessarily show the design of every version and some features are version specific.
