HERRMANS VIEW ON SUSTAINABILITY AND SAFETY

Herrmans is a European leader within the bicycle industry and a standing OEM supplier. We are known for our reliability, quality thinking and service-mindedness. By choosing Herrmans products you can offer the customer a high-quality product at a reasonable price.

We do not make compromises on sustainability and safety. We deliberately choose the most environmentally friendly options in our daily decision-making.

Following regulations is also the key to safety and quality. Therefore, our grips, lights, chainguards and reflectors meet the standards of the market. Herrmans is certified according to the ISO 9001 and ISO 14001 standards.

We also ensure that our bicycle components comply with the bicycle norm EN ISO 4210. They also comply with the requirements of the REACH EU 1907/2006 legislation, which also includes the SVHC list and restricted PAH's. We do not produce or import any chemicals that require evaluation or registration.

HERRMANS VIEW ON THE ENVIRONMENT

The whole aftermarket range is provided in a modern packaging to give you the best overall impact. All of our products are produced in Europe, and packages are produced locally, only a ten-minute drive from the factory.

We are proud to have the FSC logo (Forest Stewardship Council) on our aftermarket packages. The paper we have chosen comes from responsible forestry, that takes people and the environment into consideration. The packages are also entirely biodegradable.

The plugs on our grip cards are made from bio-based thermoplastic which can be 100% recycled.

The mark of
responsible forestry
